**1. NATURE OF OPERATIONS AND GOING CONCERN**

Canada Energy Partners Inc. (“the Company”) is an independent natural gas exploration and development company primarily focused on unconventional resource opportunities in northeast British Columbia. The Company was formed on May 18, 2006, by Certificate of Incorporation and Notice of Articles pursuant to the provisions of the Business Corporations Act (British Columbia). The Company’s principal and executive office is located at Suite 1680, 200 Burrard Street, Vancouver, BC, Canada V6C 3L6.

The amounts shown as oil and gas interests represent exploration and development expenditures incurred to date and acquisition costs for the working interests in the Company’s prospects and do not necessarily represent present or future values. The underlying value of oil and gas interests is entirely dependent on the existence of economically recoverable reserves, securing and maintaining title and beneficial interest in the Company’s prospects, the ability of the Company to obtain the necessary financing to complete its share of the development, and future profitable production.

***Going concern***

These consolidated financial statements are prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”), on a going concern basis, which presume the realization of assets and discharge of liabilities in the normal course of business for the foreseeable future. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, twelve months from the end of the reporting period.

For the period ended January 31, 2013, the Company incurred a net loss of \$323,145 (January 31, 2012 - \$864,526) and had working capital of \$172,495 (April 30, 2012 - \$807,391). The Company does not generate sufficient cash flow from operations to adequately fund its future activities and has relied principally upon issuance of securities to fund its exploration, development and administrative expenditures. These conditions raise significant doubt regarding the Company’s ability to continue as a going concern.

The Company will require additional capital to fund its future property acquisitions and its exploration and development programs as well as for administrative purposes. There is material uncertainty about whether the Company will be able to obtain additional capital. If management is unable to obtain new funding, the Company may be unable to continue its operations, and amounts realized for assets may be less than amounts reflected in these consolidated financial statements.

These consolidated financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations.

**2. SIGNIFICANT ACCOUNTING POLICIES**

***Basis of presentation***

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The condensed consolidated interim financial statements should be read in conjunction with the annual financial statements for the year ended April 30, 2012, which have been prepared in accordance with IFRS as issued by the IASB. The Company has used the same accounting policies and methods of computation as in the annual financial statements for the year ended April 30, 2012.

These condensed consolidated interim financial statements were approved for issuance by the Company’s Board of Directors on March 12, 2013.

***Basis of Consolidation***

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, Hudson’s Hope Gas, Ltd. (“HHG”). Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. Control of HHG was obtained effective June 26, 2012 when the Company acquired all of the outstanding shares of HHG.

All intercompany balances and transactions, income and expenses have been eliminated upon consolidation.

**3. ACQUISITION OF HUDSON’S HOPE GAS, LTD.**

On June 26, 2012 the Company acquired all of the outstanding shares of Hudson’s Hope Gas, Ltd. (“HHG”), from GeoMet Inc. (“GeoMet”) for a consideration of 2 million shares of the Company. HHG is the operator and 50% owner of the Company’s Peace River Coalbed Methane (“CBM”) Project. This share purchase, plus the 50% of the CBM that the Company already owned, brings the Company’s ownership of the CBM Project to 100%.

The fair value of the common shares of the company issued in connection with the acquisition has been determined at \$0.14 per shares based on the market value of shares on the date of transaction.

The purchase consideration is comprised of the following:

<b>Total purchase price</b>	
Issuance of 2,000,000 Canada Energy Partners shares for HHG	\$ 280,000
Transaction costs	\$ 41,017
	<b>\$ 321,017</b>

The fair value of Hudson’s Hope Gas, Ltd. assets acquired and liabilities assumed as at the acquisition date were as follows:

<b>Purchase price allocation</b>	
Exploration and evaluation asset (Oil and Gas Interests)	\$ 854,416
Accounts receivable	856
Decommissioning liabilities	(534,255)
	<b>\$ 321,017</b>

**4. OIL AND GAS INTERESTS** (continued)

Included in acquisition costs is a \$171,070 term deposit pledged in support of the letter of credit issued by the Company's bank in favor of the British Columbia Oil and Gas Commission ("BCOGC") to ensure that the Company can complete its reclamation obligations, including shut-down, closure, and post-closure. The security will be released back to the Company once the reclamation has been completed according to the plan agreed with the BCOGC and the site is returned to an acceptable state; or if operatorship is passed to a qualified third party. (Note 9)

**Peace River Project, British Columbia**

The Company has working interests in the oil and gas leases located in the Peace River area near Hudson's Hope in northeast British Columbia. Peace River Project consists of shallow rights (from the surface to the base of Gething formation) and deep rights (from the base of Gething to the basement).

Shallow rights

Shallow rights include Peace River CBM Project and Moosebar Shale rights. On June 26, 2012 the Company increased its working interest in the CBM Project and Moosebar Shale rights to 100% by acquisition of all of the outstanding shares of HHG, the other 50% owner and the operator of the CBM Project, from GeoMet Inc., for consideration of two million common shares of the Company. The Company's interest in the Peace River CBM Project is subject to Crown royalties and for certain acreage to geological overriding royalties of up to 0.05%.

In November 2008 Canada Energy entered into a farm-in agreement (the "Agreement") with GeoMet, Inc. for Moosebar Shale shallow rights on its Peace River Project. The Company drilled an initial Moosebar horizontal test well and has earned an 87.5% interest in two sections (approximately two square miles). This interest increased to 100% upon the acquisition of the HHG shares from GeoMet. The Company's interest in the Moosebar Shale is subject to Crown royalties and for certain acreage to geological overriding royalties of up to 0.05%.

The Company bought all the shares of Hudson's Hope Gas Ltd in June 2012 and now controls 100% of the interest in the CBM Project.

Deep rights

The Company owns a 50% working interest, subject to a joint venture agreement with Crew Energy Inc. ("Crew"). According to the joint venture agreement, Crew operates the project and has earned a 50% working interest in the subject lands upon paying 100% of the costs of the exploration program. The Company's interest in the deep rights of the Peace River Project will be subject to Crown royalties, geological overriding royalties of up to 0.85% and back-in interest of 6.6% after project payout plus \$2,000,000 on approximately 3,500 acres. During fiscal year 2011, the Company and Crew acquired an additional 14 sections of deep rights in Peace River.

\$45,741 of payables related to the Peace River property have been deferred until December 31, 2014 at an interest rate of Prime + 4%. (Note 9)

**Monias Prospect, British Columbia**

The Company owns a 100% working interest in the shallow rights in seven sections, a 70% working interest in two sections, and a 35% working interest in one section. With regard to the Deep Rights, the Company owns 100% working interest in three sections, a 40% working interest in four sections, and a 35% working interest in one section.

**4. OIL AND GAS INTERESTS (continued)**

Deep rights on four sections of Monias Prospect were subject to a joint venture agreement with West Energy Ltd. ("West"), which was acquired by Daylight Energy Ltd. ("Daylight"), which in turn was acquired by Sinopec International Petroleum Exploration and Production Corporation in December 2011, and then sold to Aduro Resources in early 2012. Aduro owns a 60% working interest in four sections and the 13-30-81-21 wellbore with the Company retaining the other 40% interest. The Company owns a 100% interest in three additional sections in the Monias Prospect and the Company owns a 35% interest in the eighth section at Monias Prospect

The Company's interest in the deep rights of the Monias Prospect will be subject to Crown royalties, geological overriding royalties of up to 1% and back-in interest of 12.5% after project payout plus \$2,000,000. The Company's interest in the shallow rights of the Monias Prospect will be subject to Crown royalties, one section is subject to a 10% royalty on gas, a 5% - 10% royalty on oil production and two sections are subject to a back-in interest of 4.375% after project payout plus \$2,000,000.

The Company has provided a third party with a fixed charge security over its Monias assets to guarantee the Company's performance under related agreements. (Note 9)

**Moberly Prospect, British Columbia**

The Company owns 100% working interest subject to a joint venture agreement with Crew. According to the joint venture agreement, Crew operates the prospect and will earn a 50% working interest in two sections upon completion of the initial test well. The initial program consisted of the drilling of one exploratory well (drilled).

The Company's interest in the Moberly Prospect will be subject to Crown royalties, geological overriding royalties of 0.93% and back-in interest of 10.5% after project payout plus \$1,000,000.

**5. DECOMMISSIONING LIABILITY**

Total future decommissioning liability was estimated by management based on the Company's working interest in its wells and facilities, estimated costs to remediate, reclaim, and abandon the wells and facilities, and the estimated timing of the costs to be incurred in future periods. The Company estimated the total risk adjusted undiscounted amount of cash flows required to settle the decommissioning liability to be approximately \$2,111,479 which will be incurred from 2019 to 2033. To calculate the net present value of its decommissioning liability, the Company used a risk free rate of 1.73 to 2.61%. The following table summarizes the Company's decommissioning liability:

	Decommissioning Liability \$
Balance, as at April 30, 2011	597,012
Adjustment due to change in discount rate	121,324
Accretion Expense	21,933
Balance, as at April 30, 2012	740,269
Liabilities incurred	534,255
Accretion expense	21,347
Balance, as at January 31, 2013	1,295,871

The present value of the reclamation liability may be subject to change in future periods. Such changes will be recorded in the accounts of the Company as they occur.

**6. SHARE CAPITAL AND SHARE-BASED PAYMENT RESERVE**

On June 26, 2012, the Company issued 2,000,000 common shares for the acquisition of all of the outstanding shares of HHG. The 2,000,000 common shares of the Company issued are subject to a 12-month hold period.

During the year ended April 30, 2012, there were no share capital transactions.

**Share options and share-based compensation**

The Company grants stock options in accordance with the requirements of the Exchange. Under the plan up to 10% of outstanding Common Shares are reserved for the issuance of stock options to directors, officers, employees and consultants. The terms of the option, including the vesting terms and the option price are fixed by the directors at the time of grant subject to the price not being less than the market price of the Company's stock on the date of grant. The stock options granted are exercisable for a period of five years.

The following summarizes information about stock options that are outstanding at January 31, 2013:

	Number of Options	Weighted Average Exercise Price, \$
Balance, outstanding – April 30, 2011	7,667,500	0.63
